DEFOAMER

Professional liquid additive to counteract undesired foam formation.

(Code 903) - 10L

pH

Properties

Pre-eminently suitable for the control of foam formation that occurs during the processing of products with surface-active ingredients such as wastewater and cleaners. Also suitable for use with spray-extraction cleaning of carpet when shampoo residue causes foaming.

Dosage and Use

Depending on the degree of foam regulation, dilute 0.1%-2%. For accurate dosing, if desired, pre-dilute the Defoamer 1%-10% (1:100-1:10).
