SANITARY CLEANER

Highly concentrated cleaner with pleasant, fresh fragrance.

(Code 983) - 1L | 5L

pH

1 **2** 3 4 5 6 7 8 9 10 11 12 13 14

Properties

Removes limescale and urine stains from urinals, toilet bowls, sinks, floors and bathroom walls. Not suitable for cleaning calcareous stones (marble).

Dosage and Use

Depending on the contamination and surface, for daily cleaning dilute 1%-2% (1:100-1:50) and for periodic cleaning dilute 2%-4% (1:50 to 1:25). Suitable for manual cleaning and spray cleaning (spray bottle). Preferably, give the product time to work in. Then remove with clean water and treat with a damp sanitary cloth. Using hot water increases the cleaning power. Do not apply to acid-sensitive surfaces such as marble.
